Overview

I bring with me 13+ years of experience in delivering high quality IT solutions to global clients. I am self motivated, professional and an excellent team player, with rich expertise in User Experience, Responsive Design, Design Guidelines, Usability Testing, W2C Compatibility, Mobile Compatibility, Task Analysis, Project Workflows, and other major web technologies.

I have managed and delivered key projects for prestigious clients like **Sony, Hitachi and MarketLive**. Having worked on multiple platforms and technologies, I have experience in all aspects of Web Development Life Cycle (WDLC) with ability to lead teams in the design and development of multi-tier, client-server web applications. I have also been responsible for defining the technical strategy for product areas and ensuring that the strategy fits with client's business goals.

As a Technical Architect, I ensure that the product and technology enablers meet both functional and nonfunctional requirements of the client, along with high standards of quality.
